KS1 Owl Experience - Monday 15th June 2026

Dear Parents/ Carers,

We are very pleased to inform you that on **Monday 15th June 2026** Key Stage 1 will be taking part in an Owl Experience provided by the UK Owl and Raptor Centre. A professional falconer will bring a selection of birds. It will take place on the school site during normal school hours and children will need to wear school uniform/PE kit as usual. **We will be asking for a small contribution of £2.70 per child via Parent Pay.**

This experience will link to the children's learning about animals and their habitats, so this will be a fantastic treat for them to learn more about owls and to see them fly! The workshop will teach them about different owl and raptor species, their habitats and how they survive in the wild. It will also provide an opportunity for them to use their knowledge and learning about animals and see real examples of how animals are adapted to their habitats and what they need to survive.

This is a well established company, which has visited numerous schools, and puts the necessary safety measures in place. If you wish to find out more about the UK Owl and Raptor Centre and the work they do please click [here](#).

Yours Faithfully,
Mr Hickson, Mrs Piner and Mrs Ridley
