Nut and Peanut allergies

Dear Parents and Carers,

I am writing to inform you that within our school community, there are pupils who have a severe nut allergy. Any exposure to nuts or products containing them, may cause a life-threatening allergic reaction that could require emergency medical treatment.

To help reduce the chance of this occurring, we ask that you do not send your child into school with products containing nuts (this includes snacks at breaktime, packed lunches and any school trips). This includes, but is not limited to, all varieties of nuts, cereal bars containing nuts and chocolate nut sandwich spreads. We want to ensure that all children within our school are in a safe environment.

We appreciate your support and would like to thank you in advance for following this guidance.

If you have any questions regarding the above, please contact your child's class teacher via the school office or your child's Pupil Planner.

Regards,

Mrs M Clark
Deputy Headteacher
