

Competition Time

Time for
Change

What does Time mean to you?

Thinking about time, get creative and design a poster to enter The British Science Week Poster Competition 2024.

To enter, you simply need to create a poster which fits in with the theme 'Time.'

Be as creative as you can be. You may use: pens, pencils, paint, watercolours etc. or wool, string, foil, pipe cleaners to make your poster 3D. You may want to have a pull-out tab or other mechanism on your design. It is up to you how you present it.

The poster must be on either A4 or A3 paper/card.

Here are some ideas and questions to get you going...

Think about your own time – How do you spend it? At home, out playing in the park, arts and crafts, learning at school?

What about time in the world and beyond? How do you measure time – seconds, days, seasons, centuries? What about time in space?

Do you know any scientists whose work relates to time? What about time travel in films, TV and music?

Children from Acorn class may colour in the attached poster if they would prefer.

A winner will be chosen and announced during an assembly on Friday 15th March.

Posters will be judged on creativity, how well they fit the theme of Time, how well they have been made or drawn and how engaging they are.

Posters need to be completed and handed into Mrs T Clark or Mrs Baker by Wednesday 13th March.

Please write your name and class on the back. A winner from Year R, and each key stage will be announced during the assembly on Friday 15th March.
