

Geography Long Term Plan KS1 & KS2

KS1 Geographical vocabulary and skills		Geography Vocabulary: use basic geographical vocabulary to refer to: <ul style="list-style-type: none">● Key physical features, including: beach, cliff, coast, forest, hill, mountain, sea, ocean, river, soil, valley, vegetation, season and weather● Key human features, including: city, town, village, factory, farm, house, office, port, harbour and shop Geographical skills: Use world maps, atlases and globes to identify the UK and its countries, as well as the countries, continents and oceans studied at this key stage Geographical skills: Use simple compass directions (North, South, East & West) and locational and directional language to describe the location of features & routes on a map.		
		Term 1	Term 4	Term 6
Year Group	Knowledge Organiser	Our Country	Our Local Area	Our School
1	Enquiry Question and Unit Aim	What are the similarities and differences between London and Brasilia? <i>Children can compare London and Brasilia in terms of physical and human features.</i>	How did you act like a geographer when you studied the human and physical features of our school? <i>Children can explain how geographers complete local area studies.</i>	How does designing your own map help you to recognise human and physical features? <i>Children can create and read a map which includes landmarks and map symbols.</i>
	National Curriculum Programme of Study and Unit Aims	<i>Locational knowledge</i> Name, locate and identify characteristics of the four countries and capital cities of the United Kingdom and its surrounding seas. <i>Place knowledge</i>	<i>Geographical skills and fieldwork</i> Use simple fieldwork and observational skills to study the geography of their school and its grounds and the key human and physical features of its surrounding environment. Use simple compass directions (North,	<i>Geographical skills and fieldwork</i> Use aerial photographs and plan perspectives to recognise landmarks and basic human and physical features; devise a simple map; and use basic symbols in a key. Use simple compass directions (North,

Geography Long Term Plan KS1 & KS2

		Understand geographical similarities and differences through studying the human and physical geography of a small area of the United Kingdom, and of a small area in a contrasting non-European country.	South, East and West) and locational and directional language [for example, near and far; left and right], to describe the location of features and routes on a map.	South, East and West) and locational and directional language [for example, near and far; left and right], to describe the location of features and routes on a map.
2	Knowledge Organiser	Sensational Safari & Wonderful Weather	Magical Mapping	Beside the Seaside
	Enquiry Question and Unit Aim	<p>Explain why the UK has seasonal weather patterns and how this is different to areas near and far away from the Equator.</p> <p><i>Children know that the location of a country on the globe affects its weather patterns.</i></p>	<p>How did you use geographical skills to locate countries, continents and oceans?</p> <p><i>Children can use their knowledge of geography and explain how they located specific places.</i></p>	<p>Why did people build settlements by the sea and how do they protect them?</p> <p><i>Children can explain that physical features affect whether humans build settlements by the coast. They know key geographical vocabulary related to the coast.</i></p>
	National Curriculum Programme of Study and Unit Aims	<p><i>Human and physical geography</i></p> <p>Identify seasonal and daily weather patterns in the United Kingdom and the location of hot and cold areas of the world in relation to the Equator and the North and South Poles.</p>	<p><i>Geographical skills and fieldwork</i></p> <p>Use world maps, atlases and globes to identify the United Kingdom and its countries, as well as the countries, continents and oceans studied at this key stage.</p> <p><i>Locational knowledge</i></p> <p>Name and locate the world's seven continents and five oceans.</p>	<p><i>Human and physical geography</i></p> <p>Use basic geographical vocabulary to refer to: key physical features, including: beach, cliff, coast, forest, hill, mountain, sea, ocean, river, soil, valley, vegetation, season and weather.</p> <p>Key human features, including: city, town, village, factory, farm, house, office, port, harbour and shop</p>

Geography Long Term Plan KS1 & KS2

KS2 Geographical knowledge and skills	Place knowledge: Compare and contrast the similarities and differences (human and physical geography) of a region in the UK with the region of study. Geographical skills: To use maps, atlases and digital mapping to locate countries and describe features. Geographical skills: To use the eight points of a compass, four and six figure grid references, and symbols and keys of a map.				
Year Group		Term 1	Term 4	Term 5	Term 6
3	Knowledge organiser	<u>The UK Land Use</u>		<u>Extreme Earth</u>	<u>Rainforests</u>
	Enquiry Question and Unit Aim	Compare land use now in the UK with land use in Roman Britain. How has it changed? <i>Children can explain the main uses of land in the UK compared to a time in history.</i>		Explain how the Earth's tectonic plates affect Earth's physical geography. <i>Children can describe using geographical vocabulary how mountains and volcanoes are formed.</i>	How does the physical geography of the UK compare to the Amazon rainforest? Why are rainforests so important? <i>Children can use their locational knowledge and map skills to locate specific places on Earth.</i>
	National Curriculum Programme of Study and Unit Aims	<i>Locational knowledge</i> Name and locate counties and cities of the United Kingdom, geographical regions and their identifying human and physical characteristics, key topographical features (including hills, mountains,		<i>Physical geography</i> Describe and understand key aspects of: physical geography, including: volcanoes and earthquakes.	<i>Physical geography</i> Describe and understand key aspects of: physical geography, including: climate zones, biomes and vegetation belts. <i>Locational Knowledge</i>

Geography Long Term Plan KS1 & KS2

		coasts and rivers), and land-use patterns; and understand how some of these aspects have changed over time. <i>Geographical skills</i> Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied.			Identify the position and significance of Equator, the Tropics of Cancer and Capricorn. <i>Geographical skills</i> Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied.
4	Knowledge Organiser	<u>All Around the World</u>	<u>Somewhere to Settle</u>		<u>Water</u>
	Enquiry Question and Unit Aim	How did you use your geographical skills to locate positions of the features you have studied? <i>Children can think like geographers and locate and describe geographical features.</i>	How did natural resources influence early settlements? <i>Children can use their fieldwork skills to do a local area study and their knowledge of human geography to make links between settlements and resources.</i>		Describe the water cycle and how it is being disrupted by changes to our climate. How do geographers study this? <i>Children can use geographical vocabulary to describe the water cycle.</i>
	National Curriculum Programme of Study	<i>Locational Knowledge</i> Identify the position and significance of latitude,	<i>Human geography</i> Human geography, including: types of settlement and land		<i>Physical geography</i> Describe and understand key aspects of:

Geography Long Term Plan KS1 & KS2

	and Unit Aims	<p>longitude, Equator, Northern Hemisphere, Southern Hemisphere, the Tropics of Cancer and Capricorn, Arctic and Antarctic Circle, the Prime/Greenwich Meridian and time zones (including day and night).</p> <p><i>Geographical skills</i></p> <p>Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied.</p>	<p>use, economic activity including trade links, and the distribution of natural resources including energy, food, minerals and water.</p> <p><i>Fieldwork</i></p> <p>Study of our local settlement. Including: land use, trade links and resources.</p>		<p>physical geography, including: rivers, mountains and the water cycle.</p>
