Artist of the Week

Beatrix of Willow for her excellent ice-cream collage.
Delphine of Palm for her excellent mask design.

Dear Istead Rise families,

Term 6 is always a very busy time in the academic year, especially for Year 6 pupils and staff. There are so many events and activities that Year 6 fit in before they move onto secondary school. One of which is putting on a performance. I would like to congratulate all of the Year 6 pupils for their brilliant show to the school and to parents/ families last week. Whilst Year 6 were busy with their show, the rest of the school has also been very busy, as you can see from the newsletter.

I was lucky enough to accompany Year 3 and 4 on their trip to The Warner Brothers' Studio. All the children were extremely well behaved and we all had a great time. There are still more trips to look forward to for some classes! Please note the dates coming up, including Sports Day. More information about this event will follow shortly.

Now that children in Year R - Year 6 know who their teacher will be from September, within the next few weeks we will give them the opportunity to meet their new teacher and see their new classroom. We know that this can be an anxious time for children, but we will do everything we can to ensure a smooth transition for all of our children.

Wishing you an enjoyable (long) weekend.

Mrs M Clark

Deputy Headteacher

Mr Tyler

Finally, after a long absence due to Covid, competitions have started up again. For the first time in nearly three years, Istead Rise was able to send a team to compete against other schools. The school's Year 3 & 4 Tri Golf team travelled to the Gravesend Astroturf pitches to take on five other teams. Tri Golf is an introduction to the game of golf which involves a number of mini golf games, where players need to chip or putt a ball to hit certain targets. The nine children representing the school performed incredibly well, scoring more points throughout the different challenges than any other team, and were announced as champions. They were presented with winners' certificates and medals. Congratulations to Harry, Brody, Jacob, Nathan, Oliver, Maisey, Millie, Lyra and Ruby.

Monday 4th July
Year 6 PGL

Tuesday 12th July
Sports Day

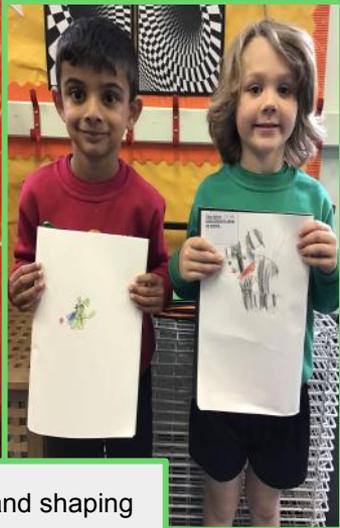

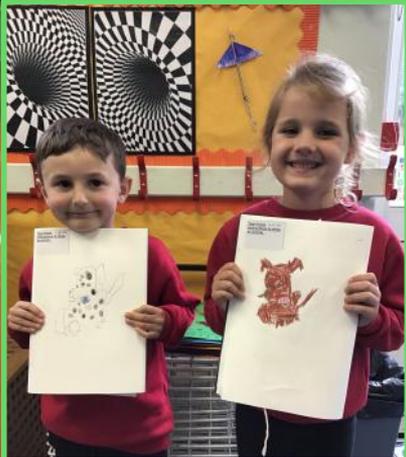

Monday 18th July
Year 5 Chessington
Trip

Friday 22nd July
End of term 6

Acorns

Art with Mr Eastwood

In art, the children learnt how to follow step by step instructions on how to sketch a dog.

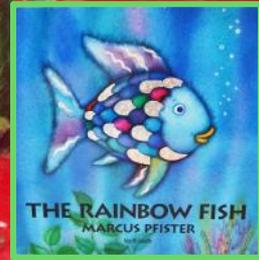

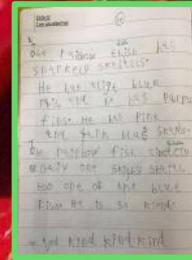

They also had lots of fun molding and shaping clay to make pots!

Writing

Learning about Under The Sea has been fantastic. The children listened to the story about 'The Rainbow Fish' and then worked in groups to create lots of adjectives about the fish. Mr Payne was extremely proud of the children's writing. Well done little Acorns!

Maths

In maths, we have been learning about how we share objects equally with each other. The children used fruit to begin with before moving on to pictorial images. Some lovely sharing.

This week we are reading *The Lighthouse Keepers Lunch* and the children have been following instructions for making their own sandwiches. They will end the week by writing instructions for someone else to follow.

During one of our recent Sticky Questions, the children were asked "Do you need to be tough to be brave?". Harry's answer to the question was, "Braveness comes from your heart not your arms!". What a wonderful answer to a tricky question, well done Harry.

In Science, we have continued our learning on plants and how they grow. We cut open a variety of fruits and vegetables to find the seeds inside. We were amazed to see the differences between them and how some fruits had lots more seeds than others.

In maths, we have been using the Base 10 to partition numbers in different ways. We enjoyed looking for the patterns.

The children have been growing and looking after their plants very carefully. As you can see, we have some wonderful gardeners in our class!

We loved our visit from the ice-cream van! The ice-creams tasted delicious and it was a lovely end of year treat!

Sycamore

This week we all went to the Warner Brothers' Studio Tour to experience the magic of Harry Potter. The children had a wonderful time and some of them were exhausted afterwards! We've also been reading *The Lion, the Witch and the Wardrobe* and have started writing a book review. In maths we are revisiting all of our learning from this year.

Cherry

Harry Potter

Cherry

We have had an amazing couple of weeks. Last week the children had a well deserved treat for working hard learning their times tables. This week we went to the Warner Brothers' Studio Tour - The Making of Harry Potter, the children had a fantastic time. In English we just finished our instructional writing on how to make a cushion and in maths we are learning about angles.

Willow & Holly

Year 5 have continued to be busy over the past couple of weeks. In English, we have started to write a newspaper report based on our experiences of seeing Frozen the Musical! We have been learning how to use direct and reported speech, as well as subordinate clauses and semi-colons. In Maths, we have been working hard learning how to convert decimals and fractions, as well as recognising thousandths. We will soon be moving onto rounding decimals.

In History, we have started a local history study. We are looking at the life of the Native American Princess Pocahontas, who travelled to England from America and died in Gravesend in the early 1600s. The children have enjoyed carrying out a study on something that is 'close to home' and have been interested in the events that happened in her life. Both classes carried out some scientific research during our Science lesson this week. They researched what blood is, where it comes from and continued their learning about the circulatory system. Well done Year 5!

Aspen

After working hard to learn songs and lines, Year 6 performed their end of year production last week. It was a great success, and all of the children did themselves proud. We did three performances in total (a full dress rehearsal to the school, and an afternoon and evening performance to parents and family). As we head towards the end of an era for our Year 6 pupils, it's another item ticked off the checklist.

In class, we have also continued with guided reading, working our way towards the end of our class novel 'Holes', and this week began our final writing sequence. We have revisited geometry in maths, looking at the properties of circles and the use of a compass in mathematical drawings. We have continued our Geography fieldwork unit, and before the end of term will go out 'into the field' to answer our enquiry question. It's an incredibly busy time of year!

Many of our pupils also visited their secondary schools this week with their transition days, they have been visited by Year 7 heads of year, and work has started on the Leavers' Assembly, ticking another item off the list...
